Organic Beeswax, Wild African Shea Butter,
Organic Neem Oil, Supercritical CO2 Neem Leaf
Extract, Peppermint Essential Oil,
Natural Vitamin E.

"Skin is one of the most widely exposed tissues to environmental carcinogens," say the researchers, who recently found that, "Neem seems to be a potential chemopreventative agent when tested on cancerous skin." Neem also scores well in research focused on stopping herpes viruses. Combine this **power of neem**, with lip-loving luxury of Organic Coconut and Wild African Shea Butter, and the great, cooling sensation of Peppermint. Summer-fall-winter-spring, take good care of your lips. Put Neem On It. They'll thank you.
