

LET US HELP YOUR PETS

A message from Autumn Blum, CEO and Founder of Organix South, and more importantly, Jenkins' Mom

Neem is cooling, soothing and astringent to help your pets skin and coat shine and stay itch-free. For more information visit our Ultimate Neem Support Guide for more recipes for supporting your pet and your household with Neem (www.organixsouth.com/resources).

Your pets, just like you, are prone to skin irritations and problems. Red skin, constant itching, open sores and strong odors can all indicate different allergies and skin troubles. Often, simply bathing them with our TheraNeem Pet Shampoo and adding a Supercritical CO2 Extract of Neem capsule to their daily diet is enough to offer substantial relief.

Neem is an excellent step in the healing process. If you haven't already, we would encourage you to research a raw or home-prepared allergen-free diet. As you know, there is no one magic pill for all pets, but with a little effort and lots of rewards, you will be on your way to having a healthier and happier pet!

Best of Health,
Autumn Blum

P.S. I'd love to hear how our products are helping. If you need some guidance, or a listening ear, feel free to email me at info@organixsouth.com. I particularly enjoy getting pictures of all the neem furbabies out there!

About Organix-South, Inc.

Organix-South[®], the world's leading manufacturer of certified organic Neem products, is a rapidly growing natural products company headquartered in rural central Florida. We are a young and idealistic group of individuals who believe that the details matter and that the journey is half the fun. We are committed to promoting organic, fairly traded and ethically wild-crafted herbal dietary supplements and effective body care products. Our mission is to create wholesome & natural products while taking care of the planet.

For information, visit our website at www.organixsouth.com or call 1-888-989-NEEM

This brochure is printed on recycled paper and using environmentally friendly ink - one of the many ways we strive to support our planet!

For persistent conditions or symptoms requiring medical attention, it is recommended that you consult a qualified veterinarian.

Pets Have Skin Problems Too!

TheraNeem[®]

 Discover the Power of **Neem**

Pets are part of our family, so we want them to be as comfortable as possible too! Our pet products utilize the power of Neem and other botanical ingredients to help soothe, nourish and cool skin irritations.

**Thera
Neem®**

TheraNeem Pet Shampoo

TheraNeem Pet Shampoo is a safe, natural solution for itchy, irritated skin without the side effects of many prescription pet shampoos. Safe for all animals, including puppies and kittens over four weeks.

TheraNeem Supplements

TheraNeem Organic Leaf Capsules & Supercritical CO₂ Extract of Neem are excellent to use along with our topical products for your pet. In many cases, simply adding one Supercritical Gel Capsule or two Leaf Capsules to your pet's diet will yield impressive results. They can also be used on an as-needed basis for a fast reduction in itching.

Pure Neem Oil

Certified organic and ethically wild-crafted Neem Oil is great for soothing hotspots, bites, red, itchy or irritated skin. Skin conditions that are ongoing often respond very well to Neem oil.

TheraVeda Supplements

We have been hearing overwhelming success stories from people supplementing their pets with our organic, vegan-friendly TheraVeda formulas. **Aller Support** for sensitive skin and tummies and **Joint Support** for additional lubrication and ease of mobility.

Jenkins' Success Story

We rescued Jenkins from a shelter on August 18, 2000. Jenkins was ten years old and was scheduled to be put down because of his horrible skin and chronic eye and ear infections. Due to an overload of toxins, his systems were shutting down; he could barely walk, had lost control of his bodily functions and was missing most of his coat. His skin was beet red, oozing, tight and hot.

The first thing we did for Jenkins when we got him home was wash him with TheraNeem® Pet Shampoo. We added an extra ounce of Pure Neem Oil to the shampoo because his skin was SO bad. We massaged this into his skin for ten minutes before rinsing. Once he was dried off, we coated his skin with more Neem oil. We repeated this every day for the first week. By the end of the third day, we could see great improvement.

For seven years, Jenkins jumped and played, his skin healthy, his coat full and his eyes flashing full of life. He ate a limited diet of raw chicken necks and vegetables and one Supercritical CO₂ Extract of Neem capsule every other day. We believe this helped with the fleas and kept his digestive and immune system on track. Jenkins got a bath twice a week with TheraNeem® Pet Shampoo.

Jenkins passed away on June 28, 2007, but his legacy lives on... By sharing his story of recovery, Jenkins has helped thousands of other itchy little dogs out there.

Love,
Autumn & Jae (aka Jenkins' Mom & Dad)
